### THE SKATER.

The skater lightly laughs and glides,
Unknowing that beneath the ice
Whereon he carves his fair device,
A stiffened corpse in silence slides.

It glareth upward at his play;
Its cold, blue, rigid fingers steal
Beneath the treading of his heel;
It floats along and floats away.

He has not seen its horror pass;
His heart is blithe; the village hears
His distant laughter; he careers
In festive waltz athwart the glass.

We are the skaters, we who skim
The surface of Life's solemn flood,
And drive with gladness in our blood,
A daring dance from brim to brim.

Our feet are swift, our faces burn,
Our hopes aspire like soaring birds;
The world takes courage from our words,
And sees the golden time return.

But ever near us, silent, cold,
Float those who bounded from the bank
With eager hearts, like us, and sank,
Because their feet were overbold.

They sank through breathing-holes of vice,
Through treacherous sheens of unbelief;
They know not their despair and grief;
Their hearts and minds are turned to ice.

### HOW PEEBLES ASKED THE OLD MAN.

BY JOHN QUILL.

Peebles had just asked Mr. Merriweather's daughter if she would give him a lift out of bachelordom, and she had said "yes." It therefore became absolutely necessary to get the old man's permission, so, as Peebles said, that arrangements might be made for hopping the conjugal twig.
Peebles said he'd rather pop the interrogatory to all of old Merriweather's daughters, and his sisters, and his female cousins, and his aunt Hannah in the country, and the whole of his female relations, than ask old Merriweather. But it had to be done, and so he sat down and studied out a speech which he was going to disgorge to old Merriweather the very first chance he got to shy it at him. So Peebles dropped in on him one Sunday evening, when all the family had meandered around to class-meeting, and found him doing a sum in beer measure, trying to calculate the exact number of quarts his interior could hold without blowing the head off of him.
"How are you, Peeb?" said old Merriweather, as Peebles walked in as white as a chunk of chalk, and trembling as if he had swallowed a condensed earthquake. Peebles was afraid to answer, because he wasn't sure about that speech. He knew he had to keep his grip on it while he had it there, or it would slip away from him quicker than an oiled eel through an auger hole. So he blurted right out:
"Mr. Merriweather: Sir, perhaps it may not be unknown to you, sir, that during an extended period of some five years I have been busily engaged in the prosecution of a commercial enterprise—"
"Is that so? and keepin' it a secret all the time, while I thought you was tendin' store? Well, by George, you're one of 'em, now ain't you?"
Peebles had to begin all over again to get the run of it.
"Mr. Merriweather: Sir, perhaps it may not be unknown to you that during an extended period of some five years I have been engaged in the prosecution of a commercial enterprise with a determination to procure a sufficient maintenance—"
"Sit down, Peeb, and help yourself to beer. Don't stand there holding your hat like a blind beggar with the paralysis. What's the matter with you, anyway? I never seen you behave yourself so in all my born days."
Peebles was knocked out of time again, and had to wander back and take a fresh start.
"Mr. Merriweather: Sir, it may not be unknown to you that during an extended period of five years I have been engaged in the prosecution of a commercial enterprise, with the determination to procure a sufficient maintenance—"
"A which ance?" asked old Merriweather; but Peebles held on to the last word like it was his only chance, and went on.
"In the hope that some day I might enter wedlock, and bestow my earthly possessions upon one whom I could call my own. I have been a lonely man, sir, and have felt that it is not good for men to be alone; therefore—"
"Neither is it, Peebles, and I'm all fired glad you dropped in. How's the old man?

### THE LEGISLATURE.

Both branches of the State Legislature convened in their respective halls at Harrisburg on Tuesday last. The Senate promptly organized, by the election of James L. Graham, of Allegheny, to the Speakership—he having received 19 votes to 16 for Wm. A. Wallace. George W. Hammond was re-elected Chief Clerk, with Lucius Rogers and F. H. Braggins as Assistants. Michael Reily, of this county, was re-elected one of the Transcribing Clerks. Wm. A. Rupert was chosen Sergeant-at-Arms, and Ethel Fuller Doorkeeper. John L. Burns, of this place, was retained as one of the Assistant Doorkeepers.

In the House, things took a stormy turn. The Democratic caucus had previously nominated Richmond L. Jones, of Berks, and the Radicals Elisha W. Davis, of Philadelphia, for the Speakership. On coming to a vote in the House, Mr. Jones received the full Democratic support, 46 votes, but Mr. Davis had only 45—nine of the Radical members refusing to go for him. They cast their votes, 7 for McClamant, of Blair, and 2 for Smith, of Allegheny. Six ballots were had, with like results. The House then adjourned, amidst considerable excitement, the bolters declaring that under no circumstances would they vote for Davis, and Davis men retorting that they would rather see Jones, the Democrat, elected than McClamant. There was no change in the situation on Wednesday, and the organization of the House seemed to be remote. The difficulty is traced to rival railroad projects, and disagreements among the leaders of the Cameron and Curtin wings of the Radical party.

### SURVEYOR GENERAL.

The Lancaster *Intelligencer* proposes John M. Cooper, Esq., of the Chambersburg *Valley Spirit*, as the Democratic candidate for Surveyor General We "second the motion." Mr. Cooper is a veteran Democratic editor, and deserves well of the party. We have known him long and well, and can bear cheerful testimony to his efficiency and faithfulness in the "good old cause." As to qualifications for the post, no other gentleman in the State possesses them in a more eminent degree. During the whole of Mr. Barr's term, and a portion of that of one of his predecessors, Mr. Cooper was connected with the Surveyor General's office in a capacity which made him familiar with its entire management. All in all, John M. Cooper is the man for Surveyor General, and should the Convention select him, its action would bring out an unusually strong endorsement in all the border counties.

AUDITOR GENERAL.—Hon. Charles E. Boyle, of Fayette county, Gen. W. W. H. Davis, of Bucks, and Dr. Markley, of Montgomery, are mentioned in connection with the Democratic nomination for Auditor General. With such material to select from, the Convention cannot well make a mistake.

STATE CONVENTION.—At the meeting of the Democratic State Central Committee, at Harrisburg, on Tuesday evening, it was resolved that the State Convention for the nomination of candidates for Auditor General and Surveyor General, and the selection of Delegates to the National Convention, be held at Harrisburg, on the 4th of March next.

DEMOCRATIC VICTORY IN COLUMBIA! *Eight Republican Majority in Last October County!* The Democracy achieved a glorious victory in Columbia—a borough which has been steadfastly Radical for a dozen years or more—on Monday last. It was a fair, stand up fight, the Democrats flagging, nominated and published their ticket two weeks in advance of the election. Wm. McDivitt, Dem., was elected Burgess by 21 majority, whilst the Democratic candidates for Town Council, School Directors and Assessor were successful by larger majorities, some running as high as 50. This result is decidedly gratifying, and shows that the Democracy are in splendid fighting condition.

MORROW B. LOWRY, the ruffled shirt Senator from the Erie district, says that his party (the Radicals) will be compelled to nominate Grant for President, in order to get a "strengthening-plaster, nerve and bone liniment and green goggles" for the "week-kneed, bow-backed and sunken-eyed Republicans." Morrow knows what's what.

ONLY $200,000,000!—The President in his last Annual Message estimates that it will cost at least Two Hundred Millions of Dollars a year to support the Mongrel plan of Reconstruction. That is, $200,000,000 annually and permanently! A very nice plum for the working classes of the North, who pay all the taxes, to eat, isn't it?

THE N. Y. *Tribune*, calculating the chances for the Presidential election, says: "*We do not think much comfort remains for any political party that cannot carry New York and Pennsylvania.*" Then not much comfort remains for the Radicals in view of their late defeat in Pennsylvania and the 50,000 against them in New York.

A RADICAL print suggests that "the vagrants usually confined in all county prisons be brought out in gangs and made to work on the streets of the county towns, cities and boroughs." How would it do to take the same measures with regard to the black Radical negro voters who are pampered in idleness by *the Freedmen's Bureau?*

THE Chicago Times very truly says that "it is sheer humbug and bosh to talk of paying our debt unless we stop the vast and useless expenditures of the Government." The most useless of these expenditures grow out of the efforts of the Radicals in Congress to "Africanize the South for the benefit of the Republican party.

THE St. Louis Democrat (Radical) says: "It is time to smile and that people have done voting about the war, and have begun voting about their pockets. Eloquent speeches about the disloyalty of this or that measure, this or that individual, will weigh less at the ballot box than one single dollar taken from the burdens of a nation praying for relief."

EVERY Radical organ in the country is denouncing Gen. Hancock because he has made the military power subsidiary to the civil and judicial authority in his Department, and because he has declared that all men should be protected in the full enjoyment of civil liberty. Washington was hated, during his time, by the same class of Radical monarchists—South Carolina only duns the Republican committee for the six thousand dollars which he thinks he earned making Radical speeches for them.

### A FRANK ADMISSION.

The Radicals have professed to be actuated by patriotic motives in laying down their plan for reconstruction. They have prated about public security, have babbled about the rights of loyal men and have bawled themselves hoarse in denunciation of rebels. The masses who at first failed to see through the flimsy veil they wore, have at last discovered how they were cheated. It has come to be perfectly well understood that the Radical plan of reconstruction, with its Freedmen's Bureau and its vast standing army in the South, is all a contrivance for securing the votes of the Southern States at the coming Presidential election.

So well is this known to be the case that prominent Republican journals no longer deny it. The New York *Times* says:

"There's a fact which is perfectly clear and which indicates the action Congress is likely to take. The Radicals in the Republican party intend that the Southern States shall be readmitted to the Union in time to be represented in the Republican National Convention, and in the next Presidential election, provided the suffrage laws they adopt are such as give assurance that their votes will be 'on the right side.' Through the agency of the Congressional Committee, the operations of the Freedmen's Bureau and the secret machinery of the Loyal League, it is believed the votes of every one of them can be secured *for Judge Chase*; and when this is made reasonably certain they will be admitted to the Union, whatever in other respects may be the character of the Constitutions they adopt. The grand aim and object of those who have controlled the action of the Republican party since the war was closed has been to secure to themselves the next Presidency. There has scarcely been any concealment of this purpose; indeed it has been avowed as the sufficient reason for the reconstruction policy that has been adopted. And it is not likely to be abandoned or modified in the slightest degree, now that the time for its consummation is so near at hand.

The *Times* declares there is no reason to hope that Congress will attempt to modify any of the harsh features of the Constitutions which are being passed by the Mongrel Conventions elected and assembled under the Reconstruction bill. Speaking to that point, it says, in reply to some suggestions of the Springfield *Republican*:

The *Republican* is predicting that Congress will send back the Constitutions of some of the Southern States for amendment, on account of the proscriptive provisions which they contain.—That of Alabama, for example, prohibits any man from voting who will not take an oath never to oppose negro suffrage. Such a provision as this is a simple outrage upon every principle of justice, and is as unwise as it is unjust. It will disfranchise a very large portion of the whites—Union men as well as rebels—and was probably intended to have that effect.

But we think the *Republican* is over sanguine in expecting any of these foolish and unjust acts to be corrected by Congress. The power of revising these Constitutions is reserved, it is true, but it is not likely to be exercised upon any very broad or liberal view of the public welfare. Congress reserves that right because it feared the Constitutions would not be radical enough; it is not likely to object to any of them that they are too radical or too proscriptive.

The great reaction in the elections of last fall was the legitimate result of a tolerably clear understanding of the designs of the Radicals by the masses.—Since that time the people have been still more completely enlightened, and each day is disclosing some new cause for dissatisfaction. It is safe to say that the coming Presidential contest will be fought upon great principles, and that the masses cannot be led into following General Grant or any other man one step further than they approve of the platform on which he may stand.

### CONFLICT OF RACES.

In Lynchburg, there is a deadly feud between the soldiers of the regular army, there stationed, and the negroes of the city. The former have become completely disgusted with the blacks, and do not hesitate on any occasion to show their feeling toward the race.

On Christmas evening a serious disturbance occurred between the soldiers and negroes. The origin of the *emeute* is involved in doubt, but it is certain that several negroes came to the assistance of a brother freedman who was beating a soldier. Other soldiers rallied to the *support of their comrade*; a large crowd gathered and a bloody riot seemed imminent, when the timely arrival of the city police and a squad of armed soldiers from headquarters secured quiet.

On Thursday another disturbance occurred, but the soldiers, being in the minority, were forced to beat a precipitate retreat before a negro mob. The latter followed in force, armed with pistols and sticks, rending the air with cries of "Kill 'em—kill the d—d blue coats!"

Constant collisions are taking place between the two races—sometimes with the soldiers who are sent there to protect them in their insolence, and sometimes with the disarmed whites. Such conduct on the part of the negroes was never known until the Radicals took them in hand and made them voters; and we have no hope of things being any better while the present party remains in power. The negro must be made to occupy the subordinate position God intended him for, and the control of the South placed in the hands of the whites.—When this is done we shall have peace and prosperity, *but not before*

### WHO IS RESPONSIBLE?

The condition of the South is most deplorable—socially, pecuniarily, politically—it could scarcely be worse; starvation, despair, disturbance, appear all over its surface; yet there has been time since the war to organize constitutional governments in the "dislocated" States, restore them to their proper positions in the Union, and to afford such protection to their industry as would have not only raised them beyond want, but enabled them to contribute toward relieving the national burdens. Why has not this been done? Because Radicalism cares more for the ascendency of its power than for the peace and prosperity of the country; hence Radicalism is responsible for the calamities that afflict all sections of our land in consequence of the condition of the South; this is freely admitted by a Republican paper, as follows:—"Congress has assumed control of the whole Southern question. It denied and violently resisted, resented and defeated the authority which the Executive attempted to assert and exercise over it. Rightly or wrongly, it took into its own hands the whole business of dealing with the South,—of providing such governments as will command confidence and secure the peace, progress and prosperity of the Southern States. And Congress must expect to be held responsible for the results."—*Boston Post.*

BENJAMIN WADE is decidedly at outs with Grant. Benjamin, some days ago, addressed the General a letter for the purpose of having his son, who is an officer in the army, transferred to Carlisle barracks. He says he'll be d—d if the acting Vice President of the United States isn't at least entitled to an answer to a letter.

INCENDIARY language—"thoughts that breathe and words that burn."

### THE WAY CONGRESS SQUANDERS THE PUBLIC MONEY.

The New York *Tribune*, chiefly partisan as it is, sometimes seized with a fit of honest indignation at the acts of its party leaders in Congress, and promptly calls attention to their misdeeds. Thus, *the other day, after saying that there* was "fully a week past but that public money was appropriated by Congress for purposes for which there was no warrant in the Constitution, it quoted the following instances. It said:

"For two years, Mr. Foster, of Connecticut, drew a salary [illegible] and acted as [illegible] private secretary, which he was, by the letter of the law, entitled to no more than the salary of a decadar of the United States. Mr. Wade does the same now. He draws the salary of Vice-President, and is known as 'Acting Vice-President,' an officer not recognized by the Constitution or any law of the United States. It is entirely abhorrent rank; the extra pay has been attached to it since 1865 by courtesy and not by right; as I go on to the end of the chapter.

"The Republican Congressional Committee have had in their employ, as Southern missionaries, for a year past, a large number of men paid as clerks and officers of the House of Representatives. Is there warrant of law for this? If so, it would enlighten a great many anxious inquirers to point out just where it is."

KU-KLUX RISINGS IN VIRGINIA.—The imminent hatchings of the Radical Jacobins are now sprouting and bringing forth the fruit they each planted all over the South, especially in Virginia. The freedmen have become desperate awaiting the distribution of farms, and now seek revenge by house burning, cattle slaying, and other outrages. The counties of Amelia, Nottaway, Prince Edward, Lunenburg, Halifax, Mecklenburg and Pittsylvania are deluged with such outrages. Murder, arson, and incendiarism are of nightly occurrence, and a war of races seems inevitable. The civil authorities are powerless to protect, and military posts are so remote that the whites have determined to defend themselves in different ways, as their defences may be; but the resolution is death before negro supremacy. The forty acres and two mules promised the negroes at Christmas not being forthcoming, has caused this terrible state of affairs.

A PARADOX.—The law of Congress, establishing the Freedmen's Bureaus in the South, costs the country tens of millions of dollars annually, in order to maintain in idleness a nation of ignorant and thriftless paupers. The plea which is urged to justify this enormous drain upon the resources of the white people of the Northern and Western States is, that these black simpletons are incapable of supporting themselves. And yet Congress proposes that this army of negroes—some three or four millions in number—thus incapable of self-support, shall become the dominant governing class in ten States of the Union; not only controlling the destinies of those States, but nullifying the voice of great Commonwealths like Pennsylvania and New York and Ohio in the Congress of the United States, and even deciding the question of the next Presidency! Does history furnish a parallel with such folly and madness as this?

A ST. LOUIS paper says: "There were never, perhaps, as many persons out of employment in this city as there are at this time. The depression of trade, the partial suspension of industries, consequent on the sluggish demand for manufactures and the accumulation of unsold stocks, have conspired to deprive many working men of the labor which brought them their food and fuel, and there is no cheering prospect of a better state of affairs before next spring." What cheering prospect spring may bring we cannot imagine, unless by that time the destructive political and financial policy of the Radical party, to which the present depression of trade and industry is everywhere due, shall *have been set aside, and a more liberal* and enlightened one adopted and pursued. The Rump has declared its determination to not "let up" in its scheme to secure perpetual supremacy for the Radical party, and the people cannot get in a constitutional blow at it until next fall; hence hard times must continue for a year to come.—*Patriot & Union.*

"IT is proposed that the present postage stamp is too large, and that if the stamp is cut in two the Government saves one-half the weight in the mails of four hundred millions of stamps. It saves also one-half the paper, the ink, the mucilage, the stowage, the general bulk, and the cost of transportation.'

—The above ridiculous nonsense is characteristic of the radical abolition party The sum total of such a saving would not amount to one dollar a year *in the item of transportion. Let them* abolish their Freedmen's Bureau; economize in the expenses of Congress; stop stealing, and close up other great leaks, and we shall not be told every quarter that the already great public debt is still on the increase. So says the Lebanon *Advertiser*, and so say we.

THE workmen, nearly one thousand, employed in the railroad shops at Scranton, Pa., were notified that a reduction of ten per cent. in their wages would be made on the 1st inst. The shops have recently been working on eight-hour time. The proprietors of the Dixon Iron works, at the same place, which employ about seven hundred men, gave a similar notice to their employes, and will also reduce the number of workmen by discharging many of the single men. The Lackawanna Iron Company, at Scranton, recently discharged a large number of men.

WHEN, after three days polling at the late so-called election in Georgia, it was ascertained that enough votes were not polled to authorize a convention, and the Registrar General announced the fact, Satrap Pope, that august despot, replied—"Re-open the polls and go ahead. We must have it anyhow." The polls were re-opened and kept open two days longer, during which time, it is stated, as many as were needed of those who had previously voted were brought up to the polls and counted. This secondary "election" authorized the present convention and elected the delegates who compose it. This is what self-styled Republicans call "reconstruction."

BEVERLY THORNTON, a colored man of Warrenton, Virginia, publishes a card in the *Index* in which he says: "Having been a member of the Union League, with the understanding that it was the best step to take to promote peace, but now seeing that it is a peace-breaker of this community, and being a lover of peace at all times, I do withdraw therefrom." For similar reasons Daniel Brown, carpenter, and William Webster and Minor Grayson, blacksmiths, (all colored) have withdrawn from the league. Radicalism must have assumed a horrible shape in the South when even the negroes are forced to abandon it as a disreputable and accursed thing.

MISS RICHINGS, the vocalist, was married, on Christmas day, to M. Pierre Bernhard, a tenor of the troupe.

### A "Private" Circular from Hon. W. A. Wallace.

Quite a number of Radical journals in this State have published a circular which was issued by Hon. Wm. A. Wallace to the Chairmen of the Democratic County Committees. The document, it seems, was marked "private," though there is nothing in it which might not very properly be made public. Still, as it was meant for the instruction of the men who have the management of the party in the different counties, it was not improper to send it forth in the shape in which it appeared. We give it below:

CLEARFIELD, PA., Dec. 17, 1867.

*Dear Sir*:—The Spring Elections are approaching and it is of vital importance to us, in the great contest now pending, that we should secure IN EVERY LOCALITY, our just share of the Election Officers: Judges, Inspectors, Assessors and Constables. I write, to call your especial attention to this subject. I need not attempt to demonstrate its importance, all appreciate it. Let me beg that you and your Committee will give this subject prompt and earnest attention. Regard it as a business matter and act accordingly. AROUSE OUR FRIENDS IN EVERY DISTRICT; show them how powerful this weapon is, when effectually used. USE THE NECESSARY MEANS *to carry each such* DOUBTFUL district for us. Where we are in a minority, place a man of high character, well informed and courageous, on the Board, as our Inspector; IN SUCH DISTRICTS SEE THAT OUR VERY BEST MEN ARE SELECTED. It is a great error to fill such places with weak men.

Lists of doubtful men and of those who voted with us in 1867, for the first time, with their townships and post offices, will be made very useful. Furnish us all of these that you can obtain.

There are a great many aliens, ready for naturalization, throughout the State. All must now be naturalized. Your lists and mine will be lessened, if you will obtain their names and residences at an early day, and give me the probable cost of naturalizing them.

In arranging for your spring elections, you can obtain this information with *comparative ease.*

If you have not already furnished me with the names and post office address of two active Democrats in each election district in your county, I will be obliged if you will do so.

Very respectfully, yours,
WM. A. WALLACE, Chairman.

The two subjects treated of in the above circular are of great importance. The Democracy should make a vigorous effort to secure a majority of the election officers wherever they can possibly do so. By so doing they will be able to prevent the practice of the frauds which have so often been resorted to by the agents of the reckless party now in power. All the Democracy of Pennsylvania ask in the coming Presidential election is a fair election and an honest count of the ballots. That they can secure by attending to the township elections in the spring. They should select their very best men for election officers, men of intelligence and nerve. Where they can only hope to elect an inspector, especial care should be taken to choose the best man in the district, and for such a position no good citizen should decline to run.

The other subject is also one of great importance. It is not too early to begin the work of the coming campaign, and it is true that there are many foreigners in the State entitled to their naturalization papers. *A very large majority of* these would vote the Democratic ticket. They should all be sought out early and attended to. We do not know but that we ought to feel obliged to the Radical papers which have published this "private" circular of Mr. Wallace. If the Democracy act upon it with proper vigor all will be well. That they will do so, we have good reason to believe.—*Lancaster Intelligencer.*

### A SPLENDID RECORD.

An exchange posts the political books of the year and shows a glorious work for the Democracy. Of the twenty States in which elections have been held in the year past, the Democrats have carried ten. They carried but three last year. In these twenty States they have a popular majority of nearly 100,000 and have made the unprecedented gain of nearly 300,000 votes. A change of 10,000 votes will, next year, give to the Democrats seven of the ten States which the Radicals have carried this year. The ten states which have gone Democratic this year cast 116 electoral votes. The ten Radical States have 77 electoral votes. If we take from the list of Radical States, Ohio, which was carried for the Radical candidate for Governor by a small majority of illegal negro votes which may be thrown out by the Legislature, the electoral vote in the twenty States will stand: Democratic 107; Radical 50.

### VERY PROBABLE.

The best sign of dissolution in a political party is its division into factions. That such a division is now going on in the Radical party is evident even to the most ordinary observer. A portion of that party are determined to nominate Grant—a gentleman who will not publicly commit himself to any of its cardinal tenets or articles of faith. Another portion declare that *such a candidate* cannot, in any contingency, be acceptable, and that they will nominate positive men to stand on a positive platform. To say the least, the latter portion are right in principle. That portion who desire to sacrifice principle to expediency are strong and will have their way. A split in Radicalism is inevitable, and in it we see very clearly a real blessing to the whole country.—*Washington Union.*

KILLED HIS SON.—In Mercer county, last Tuesday, says the *Press*, William Pardoe accidentally killed his own son, some fourteen years old. He was shooting hogs, and the boy, along with others, was standing fifteen or twenty feet at the left side—the cap exploded without a discharge from the gun following—a second cap had the same result, when he laid the gun on the hollow of his left arm, to put on a third cap, and in this position it discharged, the ball from which passed through the head of his son. "My God, I have killed my son," was the exclamation of the unfortunate father, as soon as he saw him fall, when he, too, fell to the earth

DETROIT, MICH., Dec. 27—A shocking accident occurred at Clay Banks, last week, which resulted in the burning to death of four children, named Winder-Ranyck. The mother had locked the children in the house to prevent them from following her, while she attended to some out-door work. A large pile of shavings had been made by the father in finishing off a room, and were left in one corner. The children, in play, set fire to the shavings, and the house was soon in flames, and all were consumed together, in spite of the frantic efforts of the mother to rescue them.

WHY did Gen. Butler object to the introduction of a resolution into the House calling for information as to the expenses of the impeachment investigation? The facts are damning as it stands to the country, and as they are certainly in a shape not before long, they might as well be published at once. It is true that the facts, including the plastering, will cost something like half a million dollars?

### VARIOUS MATTERS.

CONGRESS re-assembled on Monday, but is doing nothing for the good of the country.

THE Rump House Radicals on Monday last passed a resolution of thanks to Gen. Hancock. Just like them. Were Washington living they would treat him just as badly.

THE Governor of Mississippi has been compelled, by the threatening bearing and numberless criminal acts of the black population, as well as by well-authenticated intelligence of an insurrectionary conspiracy among them, to issue a proclamation of warning.

THE New York *Times*, Radical, declares that the Chase party intend to run their candidate for the Presidency regardless of who is nominated by the "narrow-minded blockheads."

THE San Francisco correspondent of the Chicago *Tribune*, Radical, says that if Grant should be the nominee of Forney and that faction of Radicals, he will be wofully beaten in California, Oregon and Nevada.

HARD TIMES.—The complaint of hard times comes to us from all parts of the country. The newspapers everywhere are reiterating the cry. There is untold misery and distress among the poor of all our large towns and cities.

A RADICAL negro shot another negro dead, on the Merriweather plantation, near Montgomery, Alabama, on the 29th ultimo, because the latter declared himself opposed to the Radical league. Intolerance is about all that the Rads have taught the Southern blacks.

AFTER crushing the Southern whites beneath the domination of ignorant and semi-barbarous negroes, the Radicals denounce them because they do not go to work and hew wood and draw water for the niggers. This is adding insult to injury.

SO prodigious are the squanderings of the Rump Congress that the immense revenue collections fall short of meeting the current expenses of Government. The great issues of the times have therefore reduced themselves to this: There must be a doubling of taxation or an overthrow of the Radical leaders.

AN Albany dispatch states that at a meeting of Peter Cagger and other prominent Democrats, an effort was made to induce Mr. Seymour to allow his name to go before the National Convention as a candidate for the Presidency. It is believed that he will accede to their request.

CHARLESTON, S. C., Jan. 5.—A passenger train was fired into last night, by negroes between Branchville and Columbia. No one was hurt, but to allay public apprehension General Canby is called on by the press to prohibit the carrying of deadly weapons by both whites and blacks.

PRAIRIE chickens are so numerous in Iowa that they are knocked down by the hunters with sticks, and bagged by the hundred.

MORE snow has fallen in the South during the present than any previous winter. Localities have been visited by such storms where snow has not been *seen before by the oldest inhabitant.*

THE *Home Journal* says that Mr. and Mrs. Charles Sumner have agreed upon a permanent separation. The cause assigned is "an incompatibility of temperament and opinion upon certain social questions, which precludes the possibility of their living happily together as man and wife."

THE fate of the three children who last summer wandered into the woods near their home in Daylesford, Australia, has just been learned. Their bodies were found in the hollow trunk of a tree, where, huddled together for warmth, they had died of cold and deprivation, within two hundred yards of a dwelling.

IN Vermont, by a recent law, ministers of the gospel who have ceased to perform the other duties of their sacred office are no longer authorized to solemnize marriages.

THE value of the horses, sheep, cows and cattle, generally possessed by the people in the U. S., is figured at $3,000,000,000.

WE learn from the Rev. E. P. Walton, agent of Washington College, of which General Lee is President, that the Rev. Henry Ward Beecher has contributed $1,000 towards a Southern educational fund in connection with that institution.

THE negro Jones, convicted in Frederick county, Md., of rape upon a white woman, has been sentenced to be hung. In passing sentence, the Judge declared that recent legislation (referring to the civil rights bill passed by Congress) rendered it necessary to execute State laws with the utmost rigor.

GENERAL KENTON HARPER, a prominent citizen of Augusta county, Va., died on Christmas evening, aged sixty-six years. He was a native of Chambersburg, and cousin to R. G. Harper, Esq., senior editor of the *Star and Sentinel*. As early as 1833, he founded a paper at Staunton, the *Spectator*, and continued at its head for sixteen years. He held various offices of responsibility—Mayor, Bank President, member of the Legislature, and Indian Agent under President Fillmore. Upon the breaking out of the rebellion he took part with the South, and was made General of the Virginia militia. Under orders from Gov. Letcher, he marched to Harper's Ferry and captured it, removing ordnance stores and all movable machinery. He subsequently became Colonel of the Fifth Virginia Infantry, and commanded it at Falling Waters and the first battle of Manassas. He resigned his commission (being unable to procure a brief furlough) in order to go home to see his dying wife, but arrived only in time to attend her funeral. He afterwards became Colonel of Reserves and was engaged in several important battles.

FOR forty years he was a member of the Presbyterian church, and died with the full consolations of religion, exclaiming "I would not live alway, I ask not to stay."

OUTRAGE BY A NEGRO.—Mrs. Brown, a married woman living at Glenville, Schenectady co., New York, was siezed and, after a long struggle, ravished by a negro in that town on Saturday week. Mrs. Brown was *enciente*, and at last accounts her situation was considered very critical. She was frightfully abused by her assailant, her face and body being covered with wounds and bruises. As soon as it became known that the outrage had been perpetrated a search was instituted for the villain, but he could not be found. Information of the affair was telegraphed to different points, and Saturday morning the fellow was arrested at Fonda, and in the afternoon was lodged in the Schenectady jail.

THIS year there have been made in California 3,800,000 gallons of wine and 10,000 gallons of brandy.

CANADA sent a cheese to the State Fair at Buffalo weighing 7,000 lbs., valued at $15,000.

## Local Department.

TOWN, COUNTY AND SURROUNDING COUNTIES.

*Correction.*—The announcement that the barn of Mr. Marshall, in Franklin township, recently destroyed by fire, was insured in the Mummasburg Company, is incorrect. There was no insurance in any company, and the entire loss falls on the owner.

*Another Building Association.*—Littlestown is also to have a Building Association, and that it will prove a success need not be questioned. Two hundred shares of the stock have already been subscribed for. Application will be made to the next Court for a charter—and as soon thereafter as possible the Association will be placed in the "full tide of successful operation."

*Supper.*—Union Encampment of Odd Fellows had a very pleasant re-union in their Hall on Monday evening. A capital supper constituted the principal feature—and it was, of course, duly appreciated. This has become an annual custom with the Encampment, and certainly nothing else could conduce more to genuine sociability among the membership.

*New Engine.*—The Hanover Branch Railroad Company has placed a new freight locomotive upon the road. It was built at Boston, at a cost of $11,500. The heavily increased bulk of freight on the Hanover Branch, Gettysburg and Littlestown Railroads, rendered this additional outlay necessary. The new engine promises to be a first-rate machine. Its weight is about twenty-eight tons.

*County Treasurer.*—H. D. Wattles, Esq., yesterday entered upon his duties as County Treasurer. That he will make an excellent officer, no one who knows Mr. W. will for a moment question.

Jacob Sheads, Esq., the out-going Treasurer, performed his duties faithfully, and to the satisfaction of all.

*A Young Lady Burned to Death.*—We learn that on the 31st ult., a young lady named Strasbaugh, *residing about one* mile from Fairfield, in this county, met a horrible death by burning. She was of unsound mind, but quiet and harmless in her disposition. It seems that the mother left the house for a short time, and on returning found her daughter dead upon the floor, the body burned almost to a crisp. It is supposed that her clothing caught fire from the stove, but how is a mystery.

*Sacrilege.*—On Saturday night a week, nine turkeys were stolen from Ex-Sheriff Lightner, in Mountjoy township. A wagon was heard going by the house between 12 and 1 o'clock, upon which the turkies were no doubt conveyed away.

A few nights previous, a lot of corn was stolen from Mrs. David Clapsaddle, in the same neighborhood. She had just bought the corn to fatten her pigs. These depredations may be stopped by a few "warm receptions" of the thieves.

*Painful Accident.*—Wm. Taylor was caught by a shaft at Miltenberger & Brady's steam saw mill, in Buchanan Valley, yesterday week, and having been carried around several times before the mill could be stopped, received serious injuries. One of his legs was horribly fractured, requiring amputation, which operation was performed by Drs. Stem and Huber. The other foot and leg were much bruised. There is hope that a vigorous constitution will carry him through his severe hurts.

*Agricultural Society.*—At the annual election for officers of the Adams County Agricultural Society, on Monday last, the following persons were unanimously chosen:

President—Samuel Herbst.

Vice Presidents—Hon. William McSherry and J. S. Witherow.

Recording Secretary—E. G. Fahnestock.

Corresponding Secretary—H. J. Stahle.

Treasurer—D. Wills.

Managers—Wm. B. Wilson, Wm. Wible, Jonas Rosanzahn, J. H. McClellan, E. Penrose.

*Beneficial Associations.*—At the annual election for officers of the "East Berlin Beneficial Association," on Friday evening last, the following gentlemen were chosen, to serve the ensuing year:

President, John Picking.

Vice President, George King.

Secretary, F. S. Hildebrand.

Treasurer, George Baker.

Loan Committee, Michael Bohn, William S. Naugle and Simon Attland.

At a meeting of the "Gettysburg Beneficial Association" on Saturday evening, the following officers were re-elected:

President, H. J. Stahle.

Vice President, Henry Rupp.

Secretary, R. G. Harper.

Treasurer, Hon. J. B. Danner.

Loan Committee, H. D. Wattles, Nicholas Codori and Jeremiah Culp.

*Property Sales.*—Wm. Hafer has purchased the Trostle farm, on the York turnpike, in Straban township, at $10,000.

The property of Adaline S. Larkin, (formerly Bingaman,) in Franklin township, was sold at public sale, on Saturday, to Andrew Leuchauer, of Franklin county—76 acres and some perches, at $1,529 50.

Culp & Earnshaw have sold their warehouse and cars to Alexander Cobean and James and William Bigham, at $7,500.

David Daugherty has purchased the Elker Smith shop property, in Highland township, from Jeptha Dubs—6½ acres, with improvements, at $1,150.

Samuel Lentz has disposed of 35 acres and 41 perches of wood and cleared land, in Butler township, to Jacob B. Trostle, at $955 cash.

*Property Sales in York.*—A number of valuable properties were disposed of in York recently, viz:

The property of John Evans, Esq., on the northeast corner of Centre Square, to Michael Spahr, at $20,045.

The property of the heirs of Hugh C. Boulan, deceased, in North George street, to Wm. Hay, Esq., at $7,500.

Hon. Peter McIntire sold his property on West Main street, to John Vandersloot, merchant, for $15,000.

*Dangerously Injured.*—Mr. Jacob Hoopfer, of Adams county, who we stated in our last issue, met with a painful accident near New Oxford by falling from a bridge over the railroad one night recently, it is feared will not recover from the injuries received.—*Hanover Citizen.*

*Look to Your Interest.*—Save Time and Money.

If you have anything to sell,
If you have lost anything,
If you have found anything,
If you have a house to rent
If you want to rent a house,
If you want boarding,
If you want anything,

*The Gettysburg Asylum Suit.*—The suit brought by Attorney General Fuller against the corporators of the Gettysburg Soldiers Asylum, for alleged violations of the law prohibiting lottery schemes, will come up before the Supreme Court, which meets in Philadelphia on a few days. The information was presented in the Court in May, and the answer of the defendants at the same term. Mr. Brewster then filed his demurrer to the answer, and the proceedings ended until the Court should meet again. In the meantime, the defendants have attempted to modify their scheme so as to conform to the spirit of the law, by proposing to act under the charter of the defunct International Art Union. The Attorney General clearly pointed out the illegality of that act, and refused to entertain any such proposition. He regards the whole scheme as illegal, and an attempt to revive the odious lottery system in the State, and will treat it accordingly. It is thought that the Supreme Court will effectually arrest the scheme, and that the corporators will be compelled to proceed under the strict provisions of the law or abandon their designs altogether.—*Pittsburg Commercial.*

—This scheme to make money for lottery dealers, under a very plausible cover, is hardly in a promising condition, if we are to judge *from* appearances. The party, nearly a year ago, bought a tract of land from Judge Ziegler, near this place, at $4,000, paying $1,000 down, and promising to pay the balance quarterly. But since that he has not received a dollar, notwithstanding frequent efforts to induce the purchasing party to keep faith with him. The impression is general that the Judge will be compelled to take the land back for the unpaid $3,000.

By the way, what has become of the $10,000 bonus to the "Memorial Association" which McConaughy secured to get this lottery scheme through the Legislature?

*The Lithia Springs.*—The "Gettysburg Springs Company," represented by a party of capitalists in New York city, have purchased from Mr. Ireland the "Herr property," on the Chambersburg pike, for $55 per acre. The same parties some months ago purchased the McPherson property, and also part of the woodland adjoining, from Messrs. Fahnestock and Eichelberger. We understand that the company making these purchases have abundant capital, which will be made available in developing the Springs and bringing the water into market for medicinal purposes. The water is rapidly acquiring a reputation for curative properties, and already there is a large demand for it. The company have leased the Springs from Mr. Harman, and by the above purchases control the grounds around them.—*Star.*

*Acknowledgment.*—A special dinner was provided, by citizens of town, for the orphans at the "National Homestead," on New Year's day. In connection therewith, we are requested to publish the following acknowledgment by the officers of the Institution:

Will the kind citizens of Gettysburg accept, through the public press, the warm thanks of the children, and those entrusted with their care, for their very acceptable offering on New Year's day. The generous entertainment, thus provided, was partaken with rare enjoyment. The tables were both abundantly and tastefully laid. Happiness beamed from every smiling, healthy face, gathered around.—Lieut. Norton presided, with the usual assistants, to which was added, on this occasion, Mrs. Dr. Horner, of the Household Committee for the Homestead. The day passed with great pleasure, closing with the distribution of presents to the children from "The Lodge of Good Templars," No. 164, Williamsport, Pa. To repeated thanks from those presiding, for all contributing to so much enjoyment, is added the orphans' express *wish* and *prayer* that equal happiness may attend their many friends, both near and distant, as was conferred on them by the presents and kind remembrances offered for the "merry Christmas" and "happy New Year."

*Railroad.*—The Frederick *Examiner* says that memorials, numerously signed, are in circulation, asking the Legislature to authorize the corporate authorities of Frederick to subscribe a sum not exceeding $250,000 to the building of the "Frederick and Pennsylvania Line Railroad;" but urges as a preliminary step that application be made to the Legislature for a change of route, so as to run the road through Emmittsburg, and thence in the direction of Gettysburg.

*Boyer & Son.*—Attention is called to the advertisement, in another column, of Boyer & Son, York street, who offer a choice assortment of Groceries, Queensware, &c., at small profits. Call and examine their goods, and you will be pleased. It

*"The Age."*—The prospectus of *The Age* for 1868 will be found in another column. We need hardly tell our readers that the *Age* is a first-class Democratic journal, enterprising, ably-edited, and always reliable. Address Welsh & Robb, 430 Chestnut street, Philadelphia.

*"The World at Home."*—This is the title of a monthly magazine just started at Philadelphia, by Evans & Co., 814 Chestnut street. The number before us is a capital one, both in matter and typography. Judging from it, we predict a successful career for the "World at Home." Terms, $3 per annum; single copies, 35 cents.

*Merry's Museum.*—The first number of the first volume of the new series of this favorite magazine for Boys and Girls is upon our table. It comes "enlarged, improved and rejuvenated! with a new Editor, new contributors, new artists, new engravers, new features and in a new dress." It is now entering upon the twenty-eighth year of its publication. It contains interesting stories, amusing sketches and ingenious puzzles. Nothing impure is allowed to be printed upon its pages. Besides it is cheap. Single subscription $1.50 per year. Published by Horace B. Fuller, 245 Washington street, Boston.

*A Stupid Fox.*—Last week, as one of the down morning trains from this place left Scotland, the engineer saw a red fox leap upon the railroad track at the distance of about two hundred yards in front of the train. It kept on the track, running at its greatest speed: But that was not equal to the speed of the train. And so, refusing to turn to the right or the left, swift destruction came upon it, and when the train passed on, the fox lay doubled up upon the track.—*Chambersburg Spirit.*

*Have you a Cough*, Cold, pain in the Chest, or Bronchitis? In fact, have you the premonitory symptoms of the "insatiate archer," Consumption? If so, know that relief is within your reach in the shape of Dr. Wistar's Balsam of Wild Cherry, which in many cases where hope had fled, has snatched the victim from the yawning grave.

*The "January Thaw"* often leaves many unpleasant mementoes, in the shape of Colds, Coughs and Coughs. They are, however, easily controlled by Coe's Cough Balsam. It is agreeable to the taste, effectual, and no family with children subject to Croup can afford to be without it, as it is infallible for Croup if taken in season. 1M

A MINISTER in Brooklyn had for a Christmas present—a baked potato; in which was enclosed a five hundred dollar greenback.

WE have heard of getting married by steam, and by telegraph, but we have now a more original plan, which may be called "marriage made easy." The editor of the Shippensburg Sentinel recently "overheard two young ladies talking on this subject; one said she was sure she should faint, but the other said when she got married she intended to take *chloroform.*" This, the Sentinel thinks, "is decidedly better than the plan of the bashful man, who wanted to slide into matrimony by degrees. A white handkerchief applied to the nose, a moment passed in blissful dream, and you awake in the promised land! Getting married by chloroform will undoub

# The Gettysburg Compiler.

FRIDAY, JANUARY 10, 1868.

*New Subscribers.—Premium.*—This is the beginning of a new year, and a very proper time to subscribe for the COMPILER. The paper (greatly enlarged) contains weekly not only all the news worth publishing, with agricultural and other useful reading—but also a large amount of valuable matter bearing on the political issues of the day. In local matter it is always in the lead.

Our list is already large, but it can be increased—and *should* be, the importance of the coming Presidential campaign considered. As an inducement to our present subscribers to assist in the desirable work, we make the following offer:

Any one now a subscriber to the COMPILER, who will send us the names of *four* new subscribers, *with the cash in advance*, (eight dollars,) will receive a credit of one year's subscription on his own account—in other words, for a new subscriber sent in, accompanied by the cash, a PREMIUM OF FIFTY CENTS will be allowed as a *credit* on present subscription.

Who will be the first to go into this work? CIRCULATE THE TRUTH!

*A Word in Season.*—The enlargement of the COMPILER has brought with it a vastly increased outlay—not only that necessary in the start, but every week, almost every day, since, for labor, paper, and other materials. And all this we are compelled to meet *without any increase in the price of subscription.* But are we meeting it? Scarcely—no!—Why? Simply and solely because so many who owe us don't pay. Our business is larger than ever, and yet we are getting comparatively less cash than ever. This system won't do, and can't be followed long unless backed by a fortune—which printers seldom or never are. The remedy, then, is, *prompt payment.* Not next month, or next spring, but *now*—at once—before another day, or at latest, another week goes by. We cannot live on nothing, nor can our workmen—nor will the paper-maker dispense the fruit of his capital for charity, or even on credit.

A new year is about to begin. Delinquents, pay up, and start with a clean book for 1868! Help us to adopt the *cash system.* It is best for everybody, and we *must* resort to it under our heavy outlays.

To that goodly number who pay in advance, our thanks cannot be too often expressed. But to that class who seem never to think of paying the printer, we have only to say—*pay at once, and save further trouble!*

IN MEMORIAM.

Oh why should we weep for the heaven-born blossom
That the chill frosts of winter cousign to the tomb,
Which the fingers of God hath in pity transplanted,
In sunshine and fragrance forever to bloom.

As the dove trits nest in the tree-top is flying,
When the wild tempest roars o'er the rain-beaten sod,
So fearing life's storms, she winged her flight upward,
To nestle confiding on the bosom of God.

Though spring may return with its bird-song and blossom,
And summer the glories of earth may unfold,
But ne'er shall we see the scarce budded daisy
That died e'er this sad life its sorrows unrolled.

Though years may fly on, though tempests may gather,
Yet still in our hearts thy memory we'll leave
As fresh as the zephyr, as sweet as the singing
Of the murmuring angels who sigh o'er thy grave.

Then fare well forever bright vision from heaven,
Bring thy home in the clouds some sweet solace bear,
Some balm for our hearts from a kind Father given,
For the sorrowing mortals who weep for thee here.

### FORESTS AS A PROTECTION AGAINST DROUGHT

The following is an extract from an address delivered before the Livingston County Agricultural Society, by Prof. R. C. Kedzie:

Some may ask why are forests necessary? Is not any portion left in forest so much unproductive capital? And does not a wise economy demand that these unproductive forests should be cleared up as soon as the owner can command the means, and the whole country be made productive? These are important questions, and should receive answers. If trees are of no service in the economy of nature except to furnish fuel and timber, then any surplus beyond these wants is a useless drawback on the productiveness of the country; "cut it down; why cumbereth it the ground?"

But there are other reasons why forests should be spared, and one is their control over extreme fluctuations in the rain-fall of any region. The researches of modern science, accurate and careful observation as well as the history of the past, show that a country abounding in forests be more moist, has a more copious and equal rainfall, abounds more in springs and streams, and as a consequence of all these is more exempt from great and sudden fluctuations in temperature; from late frosts in Spring and early frosts in the Fall.

Thus Egypt from the earliest period of history has been spoken of as a rainless region; but since Mahomet Ali has made his immense plantations of trees, showers have become frequent. The controlling influence of forests over rain-falls is also shown by the fact that countries once supplied with forests, and having abundant rains and immunity from frost, their forests having been destroyed, have been scourged by drought and frost till the forests were restored, when they once more became fruitful; or, if the inhabitants would not restore their protecting forests, the stern hand of famine threatened to wipe out a race that would not reverence the order of nature.

Thus the Cape de Verde Islands, so named from their greenness, have been stripped of their forests by their improvident inhabitants, since which time they suffer terribly from periodical droughts, sometimes no rain falling for three years at a time, and 30,000 inhabitants, or one-third of the population, have perished. Thus famine cuts down the inhabitants as pitilessly as they cut down the protecting trees. It has been proposed to replant the forests, yet such is the ignorance and indolence of the inhabitants that little has been done towards restoration, and it is probable that the entire race may be cut off, to be replaced by those who have learned that the "tree of the field is man's life."

### CORNMEAL FOR BUTTER-MAKING.

At a meeting of the Little Falls Farmer's Club, at Herkimer, N. Y., Judge Owen made some remarks on feeding corn meal to cows, which are reported as follows, in the Utica *Herald*:

He found no ground feed so good for butter-making as Indian meal; he made a number of experiments in feeding and the best results were obtained by feeding it dry. In that state, the animal took it slow, moistening it with saliva and thoroughly masticating it. In feeding it wet, he thought it passed directly to the third stomach, and hence was not properly assimilated. Had a large cow, of the Holderness breed, upon which he experimented to see how much meal could be fed with profit. Found that feeding two quarts at a feed, and twice a day, was all she would bear. This, in addition to hay, brought down the milk in large quantities. By such feed this cow yielded fourteen pounds of butter per week. Her highest produce was forty-one pounds of butter in fifteen days, besides thirty quarts of milk, which was saved out for family use. Did not regard turnips as of much value for milch cows; preferred potatoes, as far more valuable to feed.

### HAMS AND BEEF.

We copy the following two receipts from an exchange, and give them for what they are worth:

GOOD HAMS.—After hams have been smoked, take them down, and thoroughly rub the flesh part with *molasses*, then immediately apply ground or powdered *pepper, by sprinkling* on as much as will stick to the molasses. Hams treated in this manner will keep perfectly sweet for two or three years. This must be done before the fly deposits its eggs, for after that is done nothing will stop their ravages. The above has been practiced in our section for twenty years. One pint of molasses and one and a half or two pounds of black pepper are sufficient for any ordinary family. Try this plan if you want sweet hams.

HOW TO PICKLE BEEF.—Take five pounds of good salt, two pounds of brown sugar, one and a half ounces of saltpetre, and three gallons of water. Mix all together and boil until the ingredients are dissolved, which will require but a few minutes. Pour this on one hundred pounds of fresh beef packed tight and weighted down in the barrel, and it will keep nice and sweet, and be very much better dnt than so much pork.

MASTICATION.—The custom of not masticating the food completely is a very common cause of dyspepsia. Before the stomach can act properly on food, mastication is necessary to break the cohesion of the organic matter, in order to aid its solution in the stomach. It extends the surface of the substance to be acted upon by the juices of the stomach, in the same manner as pulverization aids the action of chemical solvents upon common matter. There is also probably some influence of the saliva, which mastication mingles with the food, in aiding the solution of solid matters in the stomach, although this is undetermined. At all events, mastication, mechanically considered, assists digestion; and nothing is more likely to act as an injurious irritant to the alimentary canal than unmasticated food.—*By a Physician.*

PRESERVATION OF MILK.—It is stated that dairy-women have discovered, but philosophers have not explained the reason, that milk suddenly cooled after being drawn from the cow, keeps much longer than otherwise. The cheap artificial methods of reducing temperature in three or four minutes to any desired point, may yet find a general and very useful application in milk-dairies, although its effect upon the production of butter is questionable.—*Scientific American.*

APPLES keep best when cool and dry. Sudden change of temperature induces the collection of moisture on the skin, which dissolves the delicate varnish with which the skin of the apple is covered, and it soon spoils.

It is said that the Hessian fly will not trouble grain sown later on clay ground, and that it destroys that sown early on sandy and gravelly soils. The opinion is based on experience.

THE undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the states of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined it thoroughly, tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller in every way.* The report is signed by such men as John Stanton Gould, Editor of the Albany—and one Agriculturist—B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

Considering such high, and generally newspaper notices, the following, from the New York *Observer*, is deemed sufficient.

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleans, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.
